

DMX-LEDTRIX Gateway, 5 channel

51688011

DMX-LEDTRIX Gateway, 5 channel

Main Features

- > Gateway for the connection of LEDTRIX actuators to DMX
- > DMX address to be set via rotary coding switch
- > No programming required
- > Conversion of 240 DMX channels to 5 LEDTRIX universes with 48 channels each
- > Accessory: DIN-rail support, see accessory

Specifications

Rated voltage	DC 28 V	No-load state	secured
Rated insulation voltage	2.5 kV to DMX	Dimensions	90 x 116 x 42 mm
Power consumption	1.6 W	Connections, outputs	1 XLR socket, 5 LEDTRIX plugs
Degree of protection	IP20	Connections, inputs	1 XLR plug
Protection class	III	Laying instructions	LEDTRIX: SELV
Controllable channels	5	Interface	DMX / LEDTRIX
Ambient temperature t_a	-20 ... +45 °C	Display-/operating elements	1 display LED, 3 rotary coding switches
Protected against overheating	not necessary	Design	Profilated housing, black / grey
		Short-circuit protection	yes
