

Product features

The in-ground light line OGL4 LH3 made of V4A stainless steel is more than just a simple orientation light. Thanks to the direct connection to the mains voltage and compatibility with standard dimmers, this light impresses with its minimal space requirement and low installation effort. OGL4 is a minimalist lighting solution for designing outdoor spaces and public spaces. Barely visible housing parts make the light almost invisible during the day. At night, the modules can be controlled individually, thus enabling different lighting scenarios and dramaturgy. The vandalism-proof housing made of stainless steel V4A and end caps made of metal substitute materials allows maximum loads and guarantees simple, tool-free maintenance.

Technical specifications

Protection class	
IP68 (2m), IP69, IP69K	
lifespan	L80B10 60,000h @ 25 ° C
Ambient temperature	-20 ... + 45 ° C
Storage & transport temperature	-25 ... + 70 ° C
nominal voltage	AC 220 ... 240 V
Nominal frequency	50 Hz
Housing material	Stainless steel V4A
Glow wire resistance	650 ° C
Protection class	II
Protection class	IP68 (2m), IP69, IP69K
Impact resistance	IK10
Connection type	free end of line
Color fidelity	SDCM 3
Colour reproduction	>90
